

# Mineral Filters [ EXPOSED ]

While favored by many for skin safety & coral reefs preservation—

User experience has not been a priority for developers

We have changed that.

Amean  
BEAUTY

*Model wearing Total Defense Sheer SPF 30*

# Plastic Surgeons + “Dispersion”

Developed by world-renowned Plastic Surgeons

We ditch the standard emulsification and opt for a proprietary cold-air dispersion technique

Our non-nano minerals disperse **seamlessly** into the formula and **all skin tones**

*Secret - Our dispersion prevents unwanted ingredient degradation that is commonly associated with the prolonged high temperatures needed to emulsify ingredients together.*

# Best in Class Minerals

2.3% Titanium Dioxide & 4.8% Zinc Oxide

Light Scattering Technology

Conditioning Fatty Acid Mineral Blend

*Dispersions provide the best UV protection*

**Ameann**  
BEAUTY

*Model wearing Total Defense Sheer SPF 30*

# ELEMENT PROTECTION

SPF 30 UV Broad Spectrum

Blue Light Defense

Infrared Radiation

Powerful Pollution Defense

*FDA newest criteria - UVAI / UV ratio of 0.7+ for broad spectrum*
